

PROTEC PROSICON® EPS 875

Elastic net tube – surface protection

HEAT RESISTANT!

IHR PROSICON® PRODUKTVORTEIL. KONSEQUENTE DAUERTIEFPREISE.

ELASTIC NET TUBE – SURFACE PROTECTION:

As an alternative to caps, these surface protection nets with the elastic plastic grid offer ideal protection for covering threads, screws, tenons, bolts or long profiles.

Especially when many different lengths have to be covered with the same diameter.

Mesh hose protects against abrasion, splinters and vibration.

The length of the net tube is easy to determine yourself.

MATERIAL:

Prosicon® Silikon Kautschuk 55 Shore A, hitzebeständig bis max. 316° C.

BLU SIGNATURE® PRODUCT CODE:

Reusable

COLOR:

Special color runs available on request.

WERKSTOFF:

sortenreines und recyclebares LLD-PE

SONDERANFERTIGUNGEN IN REKORDZEIT:

On request we develop and produce individually tailored solutions along with the standard items of this range: If you require additional dimensions, different materials and new colours. We would be pleased to assist you.

Individuell.

Für Ihren speziellen Anwendungsfall

Hi-Speed.

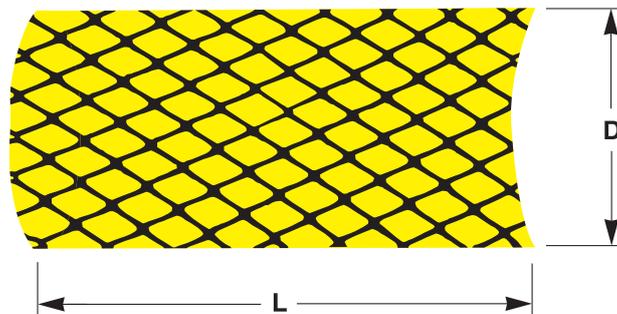

Rapid Prototyping. Schnelle Funktionsmuster

Unschlagbar.

Extrem niedrige Werkzeugkosten
